Mr. Paul Heyens
Alberta Construction Association
18004-107 AVENUE NW
EDMONTON AB T5S 2J5

Dear Mr. Heyens:

APR 26 2019

Letter of Support for National Trade Corridor Fund Applications

On behalf of the Department of Infrastructure, I would like to thank you for your letter of support, which was included in the Government of the Northwest Territories' submissions under the National Trade Corridor Fund for the Slave Geological Province Corridor and the Frank Channel Bridge projects.

If funding is approved by the federal government, this project will increase the resiliency of the transportation system by adapting to the impacts of climate change, address the transportation needs of Northern communities, including safety and economic development, lower costs for mineral exploration, and increase the development potential of mineral resources in the Northwest Territories.

We appreciate your support to strengthen the case for federal investment, bringing us closer to achieving our shared vision of prosperity.

Sincerely,

Wally Schumann
Minister
Infrastructure
